

WANTED

• INVASIVE PLANT SPECIES •

ORIENTAL BITTERSWEET

THE DOWN AND DIRTY:

THIS NASTY VINE CLIMBS OVER AND SMOTHERS OTHER PLANTS AND SHRUBS WHICH MAY CAUSE THEM TO DIE BECAUSE OF TOO MUCH SHADE. IT CAN EVEN CLIMB HIGH UP INTO TREES ADDING TOO MUCH WEIGHT. TREES MAY BE UPROOTED OR BLOWN-OVER IN HIGH WINDS OR SNOWFALLS BECAUSE OF THE EXTRA WEIGHT. BOO! BAD FOR BATS, BAD FOR TREES, AND BAD FOR US!

BATWEEK

BATS NEED TO EAT LOTS OF DIFFERENT INSECTS TO STAY HEALTHY. WHEN INVASIVE PLANTS MOVE IN, THEY PUSH OUT OUR NATIVE PLANTS. NATIVE PLANTS SUPPORT A HUGE VARIETY OF YUMMY INSECTS THAT BATS AND OTHER WILDLIFE NEED
